

## Toni Valente

He graduated in Pharmaceutical Chemistry and Technology from the University Federico II of Naples and completed a Master's program in Occupational Health and Safety at the University Tor Vergata of Rome.

He began his professional career in the late '80s at R&D SIGMA-TAU S.p.A. and later joined the PHARMACIA & UPJOHN-PIERREL group, where he managed onsite integrated QA & HSE systems.

During his tenure at Pierrel, he has held various roles in Development and Manufacturing and is currently QP & Chief Technical Officer.

He also serves as the Regional Delegate for AFI (Associazione Farmaceutici Industria) for the Campania region.

He is Vice President of the Outsourcing Group at FARMINDUSTRIA and a member of the Production Working Group within the same association.

He is also a university lecturer in specialized Master's programs on pharmaceutical manufacturing technologies and Risk Management at La Sapienza University in Rome and the University Federico II in Naples.
